ATLAS CONTAINER KIT BUILDINGS

Building Kit Inclusions:

All building kits to be 39'-9" Long at 13'-3" on center.
All covers to be White Non-FR Fabric, with covers being the same dimensions in both inside/outside mount configuration.
All building kits to include required container mount brackets to be shipped as black steel.

Fabric Finishing:

Inside Mount is to utilize a 320 interior tension pocket system.
Outside Mount is to utilize a 220 tension system with pocket being located at ~15" below Zero. Outside Mount to include bump-out tube for finishing.

Endwall Options:

Solid Endwall to terminate at Zero. Cover to have 320 interior pocket at 18" above Zero with a 15" drop. HSS & ESS provided at Type 12.
Solid Endwall to terminate at 9'-6" below Zero. Cover to have 320 interior pocket at 24" above Zero. HSS & ESS provided at Type 12.
Solid Endwall to terminate at 9'-6" below Zero. Cover to have 320 interior pocket at 24" above Zero. HSS & ESS provided at Type 12 & (1) 16' Header to be provided.

UPGRADES

Option	Description	MSRP	Sourcewell Retail Price
Bolt Pkg Upgrade	Hot dip galvanized bolt package	Building (per sq. ft. of building)	0.18
		End Wall (per HSS end pkg)	195.00
Stainless Cross Cable Upgrade	5/16" - Stainless steel cross cables (substitution) (each)	55.00	46.75
	1/2" - Stainless steel cross cables (substitution) (each)	90.00	76.50
HDG Purlin Upgrade	Upgrade purlins from Pre Galv to HDG Post fabrication per square foot cost	0.18	0.15
HDG ESS Upgrade	Buildings under 52' W	130.00	110.00
	Buildings 52' W to 80' W	325.00	275.00
	Buildings Buildings 81' W to 108' W	645.00	545.00

CONTAINER MOUNT UPGRADE

Available on Atlas 18.2 buildings only

Option	Description	MSRP	Sourcewell Retail Price
CONTAINER MOUNT UPGRADE	Cost to upgrade the standard GM/PM building to using the Container Mount brackets. Cost is per truss frame - for example, a 40'L building @ 10' OC would have 5 truss frames. Upgrade cost would be \$160 x 5 = \$800	190.00	160.00
ADD BUMP-OUT	The standard Atlas 18.2 building does not include the bump out system, if required for this application it needs to be added to the price - for example, a 40'L building upgrade cost would be \$17 x 40' = \$680	20.00	17.00

NOTE - For 80'L buildings, the brackets cannot land in the center where the two containers meet. Depending on the truss centers, there may need to be an odd sized bay to get around the center corner castings.
